Application: Cover Letter for an internship

I am currently in my first year of Higher National Degree Information Technology and Networks at lycée Jules Haag in Besançon, 25 000 in France. Your company is the first in IT developement and that is why I want to apply for an internship.

You have created a lot of web apps, web sites and applications for big companies.

I have got a lot of knowledge and hard skills in Python, web developpment and C++ because I have done some projects. IT is my strength during this HDN.

In previous jobs, I have developped lot of soft skills. I learned team work, I am ponctual and I am very curious.

Thank you for considering my application, I am available any times to meet you for a job interview.

Yours faithfully.

Gabin Serrurot
